Re: Water Right 85-94 (D1719), (Bert's Powder Spring Area) vested in Trevor K. Leach Revocable Trust and Trevor Kenneth and Ila Millet Leach

Dear Sir or Madam:

By letter dated March 6, 1995, and addressed to the Department of the Interior, Bureau of Land Management, Andrew Edwards submitted a "NOTICE OF INTENT TO LOCATE" upon the lands described in a copy of said letter submitted herewith.

My clients, Trevor K. Leach and Robert C. Leach own the lands describe in said letter. Trevor K. Leach (Revocable Trust) owns the water claims as identified in the above caption and also known as Bert's Powder Springs. Andrew D. Edward's "NOTICE OF INTENT TO LOCATE" has been submitted with the intent of strip mining the three forty acre parcels described in said "NOTICE", hereafter referred to as (3-40s). Said 3-40s constitute a major portion of the water catchment area for Bert's Powder Springs and my clients are concerned that strip mining on said 3-40s will disrupt and probably terminate the water flow to Bert's Powder Springs.

My clients run a cattle operation on the property and cannot afford the risk that said proposed strip mining will interfere with said springs and it's source.

This letter has two purposes: (1) To place your department on notice of the real and potential damage the aquifer and, (2) to protest any mining on said 3-40s. I believe that your department should have considerable interest in protecting the flow of water through said aquifer. Therefore, it is suggested that you investigate said situation and express the concerns of your department to Mr. Walt Phelps of the Department of the Interior, Bureau of Land Management, 324 South State Street, Suite 301, Salt Lake City, Utah, 84111.

If you need further information, please contact me. Also, please keep me informed of any action taken by your department to protect this precious water right.

Sincerely,

Jim R. Scarth
